To

Mr. Mohamed Zulkifly

Supply Chain, Logistics and Workshop Co ordinator

Al Sawari International Investment Company SAOC

Sultanate of Oman

Dear Mr. Mohamed Zulkifly,

Greetings!

Re: Proposal for Implementation of HRMS, Payroll, Employee Self-Service (ESS)

Nexura Business Solutions LLC is pleased to submit this comprehensive technical and commercial proposal to Al Sawari International Investment Company SAOC for the implementation of an integrated Human Resource Management System (HRMS), Payroll, Employee and Self-Service Portal.

Our proposed solution — Nexwork ONE HR Suite — is a purpose-built, web-based, cloud-ready HR platform conceived, designed, and developed in Oman by our team. The system is fully aligned with all applicable Omani regulatory requirements.

With over satisfied clients across Oman including corporates, retail, and SME organisations, we bring proven implementation expertise and in-country support to every engagement. Our dedicated Muscat-based team ensures that Al Sawari International's go-live is smooth, on-time, and backed by responsive post-implementation support.

We are confident that Nexwork ONE HR Suite represents the best value, lowest risk, and most compliant solution available for your organisation.

We look forward to the opportunity to partner with Al Sawari International and contribute to your operational excellence.

Best Regards,

SARAVANAN
Head of Business
M: +968 9090 1201
E: saravanan@nexuraoman.com

1. Executive Summary

Nexura Business Solutions LLC proposes the implementation of Nexwork ONE HR Suite — a comprehensive, fully integrated HRMS, Payroll and ESS purpose-built for organisations operating in the Sultanate of Oman. The solution is designed to eliminate manual HR processes, ensure 100% regulatory compliance, and empower Al Sawari International's workforce with modern digital self-service capabilities.

1.1 Key Business Drivers

- Our HRMS and Payroll system is fully compliant with **Oman Labour Law**, covering **WPS salary transfers, PASI contributions, Omanisation requirements, and statutory leave policies** as mandated by the Sultanate of Oman.
- Elimination of **manual, error-prone payroll processes and paper-based HR workflows**, improving operational efficiency, accuracy, and transparency.
- **Biometric Time & Attendance integration** with automated payroll processing for accurate attendance tracking and salary calculations.
- **Employee Self-Service (ESS) portal and mobile access**, enabling employees to manage HR requests such as leave applications, document requests, and personal information updates independently.
- **Seamless integration with existing ERP and accounting systems**, ensuring smooth data exchange and accurate financial reporting.
- **Real-time dashboards and graphical reports** providing quick insights into workforce data, payroll costs, attendance trends, and HR analytics.
- **Configurable workflows and approval processes** aligned with the organisation's HR policies and operational requirements.
- **Web-based and cloud-ready architecture**, enabling secure access from anywhere with flexible deployment options (on-premise or cloud).
- Built using **modern and reliable technologies**, ensuring high performance, system security, and long-term scalability.
- **Local implementation and support team available in Oman**, ensuring faster response times and better alignment with local regulatory requirements.
- **Scalable platform designed to support future expansion**, additional modules, and organisational growth.

1.2 Proposal Highlights

Feature	Detail
Product Name	Nexwork ONE HR Suite — v9.2 (Web-Based, Cloud-Ready)
Solution Type	Cloud / On-Premise / Hybrid — client choice; fully managed option available
Core Modules	HRMS, Payroll, ESS, MSS, Time Attendance, Leave, Recruitment, Appraisal, Training, MIS Reports with Dashboards and Graphs for an extended view
Oman Compliance	Compliance with WPS, PASI, Oman Labour Law, Ministry of Labour (MOL) reporting requirements, and Omanisation regulations.
WPS Integration	SIF XML/CSV auto-generation; EFT files for ALL CBO-accredited banks in Oman
Biometrics	Integration with biometric attendance devices and application for attendance data capture and payroll processing.
Language	Full bilingual — English & Arabic (if requried) — all screens, payslips, letters

info@nexuraoman.com +968 9090 1201 www.nexuraoman.com Muscat | Sultanate of Oman

Feature	Detail
Mobile App (Optional)	Native iOS & Android ESS app — biometric login, push notifications, GPS check-in
Database	PostgreSQL (bundled, no separate license required)
Implementation	60 days — structured 7-phase implementation with parallel payroll run
Support	6 months free post-go-live support; dedicated Oman-based account manager
Customization	100% configurable to Al Sawari's HR policies, leave rules, salary structure
AMC (Post 6 Months)	18% of software licence per year — covers all modules, compliance updates

2. Scope of Work

This section defines the complete scope of software, hardware, services, and deliverables that Nexura Business Solutions LLC will provide to Al Sawari International Investment Company SAOC under this proposal.

2.1 In-Scope — Software Modules

#	Module	Scope Included	Status
01	HRMS Core	Employee master, Dependent Master, Org structure, Document Management, Onboarding, HR letters, email alerts, MIS dashboards	Included
02	Payroll System	Salary processing, WPS SIF/EFT, PASI auto-calc, EOSB, earnings/deductions, loans, air tickets, payslips, GL posting, parallel run	Included
03	ESS + MSS Portal	Leave requests, payslip, salary cert, IT/admin/travel requests, exit, multi-level approvals (3 layers), MSS dashboard, delegation	Included
04	Appraisal Management	KPI/KPA/KRA setup, appraisal templates & cycles, 360° feedback, goal metrics, evaluator groups	Optional Add-on
05	Time Attendance System	Biometric sync, shift management, leave/OT integration, mismatch correction, 20+ MIS reports, payroll feed	Included
06	Mobile App (iOS & Android)	Leave apply/approve, payslip, GPS check-in, push notifications, biometric login, offline mode	Optional Add-on
07	Recruitment + ATS	Manpower requisition, job posting, CV pipeline, interview workflow, offer letter, Omanisation impact	Optional Add-On

info@nexuraoman.com +968 9090 1201 www.nexuraoman.com Muscat | Sultanate of Oman

#	Module	Scope Included	Status
08	Training Management	TNA, course catalogue, nominations, budget tracking, certification renewal alerts	Optional Add-On
09	Grievance & Warning	Warning workflow, show cause, grievance (named/anonymous), appeal, immutable audit trail	Optional Add-On

2.2 In-Scope — Hardware & Integration

#	Item	Scope Included	Status
01	WPS Bank Integration	SIF XML/CSV + EFT file generation for all CBO-accredited Oman banks	Included
02	PASI Integration	Auto-calculation in PASI-approved format	Included
03	Email Notification Engine	SMTP alerts for all workflow events, payslip delivery, document expiry	Included
04	ERP / Finance GL Integration	GL journal export for SAP, Oracle, MS Dynamics, Odoo — REST API or CSV	Optional

2.3 In-Scope — Services

- Software installation, deployment, and environment configuration (on-premise or cloud)
- Full system parameterisation: org structure, salary rules, leave types, approval workflows, WPS & PASI setup
- Standard cosmetic customisations: company logo, report headers, payslip branding
- Business rule adoption: leave settlement, EOSB calculation, OT rates, payroll cut-off date
- Data migration from existing system (Excel) — collection, cleansing, validation, loading
- Trail run, UAT support, and test data clearance
- 2-month parallel payroll run — Nexura team supports salary calculation and WPS bank transfer
- On-site go-live support and post-go-live stabilisation
- Training delivery across all stakeholder groups
- 6 months free post-implementation support (support@nexuraoman.com)

2.4 Out-of-Scope — Chargeable as Change Requests

- Custom software development beyond agreed standard parameterisation — OMR 25/man-hour
- Finance / GL integration via custom web services — quoted separately on request
- Server hardware, OS licences, and network infrastructure — client responsibility

2.5 Client Responsibilities

- Provide server hardware meeting minimum specifications (Section 6.4)
- Identify and make key users available for each module during training and UAT
- Provide employee data in Nexura-supplied Excel templates within agreed timelines
- Assign a dedicated project coordinator from Al Sawari International's HR / IT team
- Ensure timely approvals and sign-offs at each implementation milestone

info@nexuraoman.com +968 9090 1201 www.nexuraoman.com Muscat | Sultanate of Oman

3. Core HRMS

3.1 Employee Information Management

- Comprehensive employee profile: personal, dependent, contact, emergency
- Document vault: passport, visa, residence card, labour card, civil ID, educational certificates, professional licences — all with AI-assisted expiry alerts at 90/60/30/7 days
- Dual workforce categorisation: Omani national (PASI-linked) and expatriate (visa/permit tracking)
- Employment history: positions, promotions, transfers, secondments — full audit trail
- Dependant and beneficiary management for insurance and EOSB designation
- Digital onboarding: e-form completion, document upload, policy acknowledgement

3.2 Organisational Structure Management

- Multi-company, multi-branch, multi-department hierarchy — unlimited depth
- Dynamic org chart with drag-and-drop restructuring capability
- Job position catalogue: grade, band, salary scale, and competency profile
- Reporting lines and delegation of authority matrix
- Cost centre and GL account mapping for payroll posting
- Headcount planning: approved positions vs. actual headcount with vacancy management

3.3 Recruitment Management (Optional)

- Manpower requisition with multi-level approval workflow
- Job posting to internal portal, career sites, and job boards
- Applicant Tracking System (ATS): pipeline stages, CV database, candidate scoring
- Interview scheduling, panel evaluation forms, and scoring templates
- Offer letter generation with e-signature capability
- MOM work permit application tracking — status linked to employee record
- Omanisation impact preview before each hire
- Onboarding checklist: equipment, system access, induction tasks — auto-assigned on joining

3.4 Leave Management — Full Labour Law Alignment

Additional leave capabilities:

- Hijri calendar integration — Islamic holidays auto-reconciled with official MOM announcements
- Air ticket entitlement tracking per employment contract terms (expatriates)
- Leave encashment calculation at basic salary rate on resignation or termination
- Multi-level approval workflow with email and push notification at each step
- Leave resumption and overstay management with automatic alerts
- HR analytics: leave trends, absenteeism patterns, and workforce availability reports

3.5 Performance Management (Optional)

- Configurable appraisal cycles: annual, semi-annual, quarterly, or project-based
- 360-degree feedback: self, manager, peer, and subordinate reviews
- KPI and OKR goal alignment: company → department → individual
- KPA/KPI definition templates with KRA linkage

info@nexuraoman.com +968 9090 1201 www.nexuraoman.com Muscat | Sultanate of Oman

- Rating scales and calibration workflows; bell-curve distribution analysis
- Performance Improvement Plan (PIP) with milestone tracking and HR escalation
- Direct link from appraisal outcome to increment, bonus, and promotion workflows

3.6 Training & Development (Optional)

- Training Needs Analysis (TNA) derived from appraisal competency gaps
- Training catalogue: internal sessions and external courses
- Nomination, approval, scheduling, and feedback workflow
- Training budget tracking by department with cost vs. value analytics
- Professional certification tracking with renewal alerts
- Omanisation-specific training programs tracked separately for MOM reporting

3.8 Disciplinary, Warning & Grievance Management (Optional)

- Warning issuance workflow: verbal → written → final written → suspension → termination
- Show cause notice with employee response tracking and deadline management
- Grievance submission (named or anonymous) with SLA-driven resolution workflow
- Warning and grievance categories with full case history and immutable audit trail
- Appeal management process with multi-level escalation

3.9 Separation & End of Service (EOSB)

- Trigger types: resignation, termination, retirement, contract expiry, death-in-service
- EOSB auto-calculation: Labour Law Article 39 logic — all scenarios and resignation reduction factors
- Final settlement sheet: all dues, encashment, deductions, net payment
- Clearance workflow: IT assets, access cards, accommodation, document return
- Experience letter, Embassy letter, and NOC with e-signature
- Employee on vacation — not returned from vacation — management workflow

4. Payroll Management System

4.1 Payroll Engine & Configuration

- Multi-entity, multi-branch payroll processing in Omani Rial (OMR)
- Configurable salary structures: basic salary, housing, transport, and custom allowances
- Grade-based salary scales with automatic step increments on anniversary
- Multiple payroll calendars: monthly, bi-monthly; mid-month advance with final settlement reconciliation
- Payroll simulation and what-if analysis before final run — catch errors before WPS submission
- Group-wise salary process: process payroll by department, grade, or custom group
- Payroll lock/unlock with full audit log — locked payroll cannot be altered without authorisation
- Pre-payroll checklist: attendance finalised, leave approved, biometric data reconciled
- Parallel payroll run capability for 2 months during transition and go-live

info@nexuraoman.com +968 9090 1201 www.nexuraoman.com Muscat | Sultanate of Oman

4.2 Earnings & Deductions

Earnings (Configurable)

- Basic salary and standard allowances
- Overtime and holiday pay
- Incentives, commissions, and bonuses
- Annual increments and performance pay
- Air ticket encashment and arrears

Deductions (Configurable)

- PASI employee contributions
- Salary advances and loan recoveries
- Leave without pay and absence deductions
- Staff accommodation and facility deductions
- Medical insurance or other voluntary deductions
- ROP Fines or statutory deductions

4.3 WPS Compliance & Bank Integration

- Automatic generation of Salary Information File (SIF) as per WPS requirements
- Integration with WPS-compliant banks in Oman
- WPS submission tracking and status monitoring
- Support for partial payments and payroll adjustments
- WPS compliance dashboard for monitoring payroll submissions
- Secure archive of WPS files for audit and record keeping

4.4 PASI Integration

- Automatic PASI contribution calculation for employees and employers.
- Support for PASI reporting and reconciliation.
- Generation of PASI certificates and required reports.

4.5 End of Service Benefit (EOSB)

- Automated EOSB processing in compliance with Oman Labour Law.
- Supports EOSB for resignation, termination, and contract completion.
- Generates EOSB settlement reports for HR and Finance
- Provides EOSB provision and liability reports for financial monitoring.

.4.6 Air Ticketing & Leave Encashment

- Annual air ticket entitlement tracking per employment contract (expatriates)
- Ticket encashment calculation: pro-rated by tenure and grade
- Employee on vacation — not returned management with payroll implications
- Leave encashment on annual leave settlement and final settlement
- Pre-payroll air ticket report showing entitlements due in the period

info@nexuraoman.com +968 9090 1201 www.nexuraoman.com Muscat | Sultanate of Oman

4.7 Payslip & Salary Administration

- Bilingual payslip (English / Arabic) — PDF with password protection and digital watermark
- Digital delivery: ESS portal, mobile push notification, and email
- Salary certificate, bank letter, embassy letter, and income verification — self-service generation
- Month-wise salary summary, department-wise cost report, and variance analysis
- GL journal posting file generated automatically for ERP / accounting integration (SAP, Oracle, MS Dynamics, Odoo)
- Pay provision report for month-end accrual accounting

4.8 Loan & Advance Management

- Salary advance: request → HR approve → automatic recovery in next payroll
- Employee loans: configurable amount, tenure, and interest rate with automatic EMI recovery
- Emergency advance with expedited single-approver workflow
- Loan eligibility engine: minimum tenure, grade, and outstanding balance rules
- Loan account statement and outstanding balance available in ESS portal

info@nexuraoman.com +968 9090 1201 www.nexuraoman.com Muscat | Sultanate of Oman

5. Employee Self-Service (ESS) Portal

5.1 ESS Portal Overview

The Nexwork ONE HR Suite ESS Portal empowers employees to manage their HR activities independently, reducing HR department workload by up to 60% and improving employee satisfaction. Available as a web portal and optional native mobile app (iOS and Android) in full bilingual English and Arabic.

5.2 Employee Self-Service Features

- Personal profile view and update — with HR approval for sensitive field changes
- View and download current and historical payslips (password-protected PDF)
- Apply for all leave types with live balance visibility and team holiday calendar
- Submit and track loan and advance requests with eligibility check
- Update bank account IBAN details with verification and HR approval workflow
- View performance objectives, KPIs, and submit self-appraisal
- Technology / IT request, admin request (vehicle, stationary), travel request
- View and acknowledge company documents and policies with digital signature
- Request salary certificate, NOC, experience letter, and embassy letter — instant generation
- View company announcements, video gallery, and Star of the Month
- Submit grievance or warning response — named or anonymous
- Air ticket entitlement tracking and request submission
- Exit request initiation and final settlement tracking

5.3 Manager Self-Service (MSS)

- HR and Admin dashboard: headcount, leave plan, attendance, and open positions
- Approval inbox: leave, overtime, timesheet, WFH, loan, IT requests — mobile-first
- Team leave calendar: visualise who is on leave, on site, or remote on any day
- Multi-level approval support: up to 3 configurable approval layers per transaction type
- Initiate performance appraisal, training nomination, and disciplinary action
- View team salary details (with authorisation control)
- Delegation of authority during manager's own leave period

5.4 Mobile Application — iOS & Android (Optional)

- Native iOS and Android app with biometric login — Face ID, Touch ID, fingerprint
- Push notifications: payslip ready, leave approved/rejected, document expiry, announcements
- GPS-based attendance check-in/out for field and site staff with location stamp
- Camera-based document upload with AI OCR — passport/visa fields auto-extracted
- Offline mode: payslip history, leave balances, company directory — no internet required
- Leave application and approval from mobile — full parity with web
- Dark mode support; WCAG 2.1 accessibility compliance

info@nexuraoman.com +968 9090 1201 www.nexuraoman.com Muscat | Sultanate of Oman

5.5 HR Administrator Portal

- Centralised HR operations cockpit with KPI widgets and compliance calendar
- Bulk data import/export: Excel and CSV with validation engine
- No-code workflow builder: configure approval chains and escalation rules without IT support
- User access and role management with field-level permission control
- System audit log: all transactions, approvals, and data changes with timestamps
- Announcement and document publishing to all or targeted employee groups
- Report builder: drag-and-drop custom reports with scheduling and email delivery
- HR helpdesk ticketing and SLA tracking

6. Technical Architecture & Security

Nexwork ONE HR Suite is built on a modern, web-based, cloud-ready architecture with options for Cloud, on-premise, or hybrid-cloud deployment. The system is designed for enterprise-grade reliability, security, and scalability.

6.1 Architecture Overview

Layer	Technology	Purpose
Frontend	Next.js / React	Web-based responsive interface; multilingual (English & Arabic)
Backend	Secure API — Next.js	Application logic, workflows, and system integrations
Database	PostgreSQL	Reliable relational database for secure data management
App Server	Node.js	Executes application services and API requests
Hosting	Oman-based cloud infrastructure	Client cloud infrastructure or Oman Data Park
AI Tool	Third-party AI (subscription)	For Analytics driven dashboard views

6.2 Deployment Options

Aspect	On-Premise	Cloud
Infrastructure	Client-owned server	Oman Data Park / AWS UAE region/Others
Single Server	DB + App on one server	Single VPS — 200GB SSD, 8GB RAM, 4 core
Dual Server	DB server + App server — separate	2 VPS — DB + App (separate)
Data Sovereignty	Fully within client premises	Oman / UAE region — data law compliant

info@nexuraoman.com +968 9090 1201 www.nexuraoman.com Muscat | Sultanate of Oman

Aspect	On-Premise	Cloud
Best For	Regulated entities; full data control	Most organisations — fastest, lowest cost

6.3 Security Controls

- Role-based access control (RBAC) — field-level permissions per user role
- HTTPS enforced on all connections; AES-256 encryption for data at rest
- Multi-factor authentication (MFA) for admin and payroll users
- IP whitelisting and configurable session auto-timeout
- Activity logs and audit trails — every action timestamped and recorded
- GDPR-aligned data privacy controls
- Regular penetration testing and OWASP Top 10 assessments

6.4 System Requirements — On-Premise

Component	Single Server	Dual Server
Server Type	Entry-level Physical / 1 VM	2 Entry-level Servers / 2 VMs
Hardware	200GB SSD, 8GB RAM, 4-core CPU	DB: 200GB SSD, 4GB RAM, 2-core; App: Same
Database	PostgreSQL	PostgreSQL
Operating System	Windows Server 2019	Windows Server 2019 (x2)
App Server	Node.js	Node.js on Application Server
Client Browser	Chrome, Firefox, Edge	Chrome, Firefox, Edge
Network	LAN connectivity for all users	VLAN-segmented recommended

6.5 Integration Capabilities

Integration	Protocol	Details
Biometric Devices	SDK / TCP-IP	ZKTeco, Suprema, Hikvision, Anviz
ERP / Accounting	REST API / CSV	SAP, Oracle, MS Dynamics, Odoo — GL journal auto-post
Active Directory / SSO	LDAP / SAML 2.0	Corporate SSO; user provisioning
Email & SMS	SMTP / Twilio	Notifications, alerts, payslip delivery
Finance / GL Systems	REST API / Web Services	Push payroll data to Finance system (optional)

info@nexuraoman.com +968 9090 1201 www.nexuraoman.com Muscat | Sultanate of Oman

7. Workflow Architecture & Process Flows

The **Nexwork ONE HR Suite** operates through a centralized workflow that connects employees, managers, HR administrators, and payroll processing within a single platform. All workflows such as approvals, notifications, and escalation rules can be configured within the system based on the organisation's policies.

7.1 User Roles & Access Privileges

User Role	Key Access & Responsibilities
Employee	Access Employee Self-Service (ESS) portal to update personal information, apply for leave, view payslips, and submit HR requests
Manager / Supervisor	Review and approve employee requests, monitor team attendance and leave, and evaluate employee performance
HR Administrator	Manage employee records, HR policies, organisational structure, and system workflows
Payroll Administrator	Process payroll, generate WPS files, manage salary components, and produce payroll reports
System Administrator	Manage system configuration, user access rights, and security settings

7.2 System Workflow (Overall Process)

The system follows a simple workflow covering all HR and payroll activities:

- Employees submit requests through the **Employee Self-Service (ESS) portal**
- Requests are routed to **managers for approval** based on defined workflows
- **HR administrators review and process** employee information and HR actions
- **Attendance and leave data** are automatically recorded in the system
- **Payroll is processed** based on attendance, salary structure, and approved transactions
- **Compliance reports** such as WPS and PASI are generated
- **Payslips and reports** are shared with employees and management through the system

7.3 Access Control & Security

- **Role-based access control (RBAC)** ensures users access only authorised system functions
- **Configurable approval workflows** based on organisational hierarchy
- **Audit logs and activity tracking** for system transparency
- Secure access through **authenticated user accounts and encrypted communication**

info@nexuraoman.com +968 9090 1201 www.nexuraoman.com Muscat | Sultanate of Oman

8. Implementation Methodology & Project Plan

8.1 Implementation Approach

Nexura follows a structured 7-phase implementation methodology for Nexwork ONE HR Suite. Each phase has defined entry criteria, deliverables, and sign-off milestones. Total implementation duration: 60 days from order date, with a 7-day mobilisation period.

8.2 Project Phases

#	Phase	Key Activities	Duration
1	**Project Initiation**	Kick-off meeting, define scope & milestones, project team formation, environment setup, access provisioning, high-level project plan	**Days 1–7**
2	**System Study & Gap Analysis**	Document current HR processes, identify gaps, map HR policies to system, identify customisations, data audit and collection templates	**Days 5–15**
3	**Configuration & Customisation**	Organisation setup, salary rules, leave types, workflow configuration, WPS & PASI setup,, cosmetic customisations, business rule adoption (leave rules, EOSB, OT rates)	**Days 10–30**
4	**Data Migration**	Data collection from existing system (Excel), data cleansing & validation, migration of employee master, leave balances, loan balances, payroll history; opening balance input and verification	**Days 20–40**
5	**Training**	Administrator training (2 days), HR & payroll team training (3 days, classroom), manager / supervisor training (1 day), employee ESS orientation (0.5 day, e-learning + walkthrough); user manuals provided	**Days 38–48**
6	**UAT & Parallel Run**	User acceptance testing, parallel payroll run (2 months), WPS file validation, PASI dry-run, biometric data reconciliation, test data clearance, client 'Initial Acceptance' sign-off	**Days 45–58**
7	**Go-Live & Stabilisation**	Live cutover, real-time data go-live for all modules, professional support for go-live salary calculation and bank transfer process, system stabilisation, 6-month hypercare & free support period commences	**Day 60**

info@nexuraoman.com +968 9090 1201 www.nexuraoman.com Muscat | Sultanate of Oman

8.3 Training Plan

Audience	Duration	Format	Topics Covered
System Administrator	2 days	Online/User Manual	Configuration, user management, reporting, backup
HR & Payroll Team	3 days	Online/User Manual	All HR modules, payroll processing, WPS, PASI, EOSB
Managers / Supervisors	1 day	Online/User Manual	MSS: approvals, team dashboard, performance
Employees	0.5 day	Online/User Manual	ESS portal, payslip, leave, mobile app

Training is provided to up to 5 key application users in each category for one time, maximum 3 days of 4 hours per day. User manuals (soft and hard copy) provided for all modules.

info@nexuraoman.com +968 9090 1201 www.nexuraoman.com Muscat | Sultanate of Oman

9. Commercial Proposal

9.1 Licensing Details — Al Sawari International

Detail	Al Sawari International Investment Company SAOC
License Model	Single Entity Licence — Nexwork ONE HR Suite
Licensed Employees	Up to 100 Employees
Installation Location	Muscat Head Office, Oman
Hosting Environment	On-Premise or Cloud — client choice
User Access	Unlimited multi-user access; no per-user licensing restriction
Currency	All prices quoted in Omani Rial (OMR)
Validity	30 days from date of proposal (March 2026)

9.2 Software Licence Cost

No.	Module / Description	Price (OMR)
01	**HRMS Core** Common Master, Employee Info Mgmt, Dependent Mgmt, Document Mgmt, HR Letters, Email Alerts, MIS Reports & Dashboard	2600.000
02	**Payroll Management System** Pay Structure, WPS, Leaves & OT, Earnings & Deductions, EOSB, Loans & Increments, Pay Slips, Air Ticketing, Pre-Payroll, Parallel Run, GL Posting Option	
03	**Employee Self-Service (ESS)** Leave Mgmt, Attendance Request, IT/Admin Request, Travel Request, My Details, Payslip View, Dashboard, Warning, Announcements, Salary Certificate, Exit Request, Multi-level Approvals (3 layers)	
TOTAL SOFTWARE LICENCE (All 3 modules — 100 employees)		**OMR 2600**

info@nexuraoman.com +968 9090 1201 www.nexuraoman.com Muscat | Sultanate of Oman

9.3 Implementation & Professional Services

No.	Service Description	Price (OMR)
01	**Implementation & Professional Services (60 Days)** Software installation & deployment, system configuration, parameterisation, workflow setup, master data management, business rule adoption, trail run, UAT, go-live support, salary calculation assistance, bank transfer process support **Includes: 6 months free post-implementation support + 2 months parallel payroll run**	**800.000**
	TOTAL IMPLEMENTATION & PROFESSIONAL SERVICES	**OMR 800**

9.4 Cloud Subscription (Optional)

No.	Description	Monthly (OMR)	Annual (OMR)
01	**Cloud Hosting Subscription** Server at hosting facility, 50GB storage, Windows Server 2019 R2, MS IIS, Oracle 21c, 99.9% uptime guarantee, branch connectivity	**OMR 60**	**OMR 720**
02	**Managed Service** Database maintenance, backup & recovery, 24×7 monitoring, system patching, minor application enhancements, environment & application security	Included	Included
	TOTAL CLOUD SUBSCRIPTION (Annual)		**OMR 720**

8.7 Annual Maintenance Contract (AMC)

No.	AMC Coverage	Period	Annual (OMR)
01	**Annual Maintenance Contract — All Modules** Covers: HRMS, Payroll, ESS, Services: Bug fixes, compliance patches, new version updates, technical support (Sun–Thu 8AM–6PM), remote support via TeamViewer **Effective: From 7th month post-implementation (first 6 months is free warranty)**	1 Year	**OMR 468**
	TOTAL AMC (from 7th month onwards)		**OMR 468/yr**

info@nexuraoman.com +968 9090 1201 www.nexuraoman.com Muscat | Sultanate of Oman

8.8 Optional Add-On Modules

Optional Module	Price (OMR)
Training Management + Travel Management	OMR 300
HR Budgeting + On/Off Boarding + Grievance & Warning Management	OMR 300
Recruitment Management	OMR 900
Finance / GL Integration (web services)	Quoted separately per effort
Custom Development (change requests)	OMR 15 per man-hour

info@nexuraoman.com +968 9090 1201 www.nexuraoman.com Muscat | Sultanate of Oman

9. Payment Terms & Milestones

Milestone	Description	Payment
Milestone 1 — Along with LPO	Software Licence 50% | Implementation 50%	50% of software + implementation
Milestone 2 — Software Deployment & Training	Software Licence 40% | Implementation 40%	40% of software + implementation
Milestone 3 — Project Completion & UAT	Software Licence 10% | Implementation 10%	10% final payment
Cloud Subscription (if chosen)	Payable annually in advance from go-live date	OMR 720 / year
AMC (from 7th month)	Payable annually — covers all modules + devices	OMR 468 / year

All prices are in Omani Rial (OMR) and are exclusive of VAT if/when applicable in Oman. The delay in implementation due to client delays will attract additional charges at OMR 80 per man-day.

info@nexuraoman.com +968 9090 1201 www.nexuraoman.com Muscat | Sultanate of Oman

10. Support, Maintenance & Service Level Agreements

10.1 Support Channels

- Dedicated Oman-based phone support line during business hours
- Email support: support@nexuraoman.com with guaranteed response times
- Remote support via TeamViewer — technician accesses system with client permission
- WhatsApp Business support line for urgent issues outside office hours
- On-site support when required — by prior arrangement
- Service hours: Sunday to Thursday, 08:00–18:00 (excluding Oman public holidays)

10.2 Service Level Matrix

Level	Issue Type	Definition	Response	Resolve
L3	Critical (System Down)	Payroll/WPS unable to run; server failure; data unrecoverable	30 minutes	2 hours
L2	Urgent	Partial loss of critical service; multiple users impacted	1 hour	4 hours
L1	Standard	Non-critical issue; system usable; workaround available	1 business day	3 business days

10.3 Warranty & AMC Terms

- 6-month warranty from go-live date — all bug fixes, patches, and minor enhancements free of charge
- Warranty covers: application unworkable, data loss from system error, incorrect calculation results, troubleshooting during implementation
- Warranty excludes: third-party modifications, expired warranty period, hardware issues
- During warranty period: new version patches and updates delivered free of charge
- AMC from 7th month: 18% of software licence per year — covers all modules and biometric devices
- Any additional development or new requirements during AMC: OMR 15 per man-hour, quoted separately on change request

10.4 Regulatory Compliance Maintenance

Oman's regulatory environment evolves regularly. Nexura's dedicated compliance team monitors:

- Ministry of Manpower circulars and Labour Law amendments
- PASI rate changes, new form requirements, and portal format updates
- CBO WPS format updates and bank integration specification changes
- National holiday calendar updates including Islamic Hijri calendar adjustments
- Omanisation quota revisions by industry sector

All regulatory updates are released as system patches within 15 business days of official gazette publication and are included in AMC at no additional cost.

11. Why Nexura Business Solutions & Nexwork ONE HR Suite

11.1 About Us

Nexura Business Solutions LLC is a Muscat-based technology company supporting organisations in their digital transformation journey in line with Oman Vision 2040. The company specializes in technologies such as Artificial Intelligence (AI), Internet of Things (IoT), and Computer Vision to help businesses improve operational efficiency and automation.

Nexura develops intelligent solutions for facility monitoring, smart analytics, and workforce management, enabling organisations to operate more efficiently through modern digital platforms.

The company also develops ERP systems such as HRMS, Payroll, Employee Self-Service (ESS), Finance, and Inventory management systems, designed to comply with Oman regulations.

In addition, Nexura develops custom web applications, mobile applications, and traditional enterprise software solutions tailored to the specific operational needs of organisations.

With a strong focus on innovation, scalability, and reliability, Nexura delivers technology solutions supported by a dedicated implementation and support team based in Oman.

11.2 Proven Track Record

- Successfully delivering AI-based Computer Vision and analytics solutions for intelligent monitoring and operational insights
- Providing Web based ERP Systems including HRMS and payroll systems that support modern workforce management and business automation
- Developing enterprise digital platforms that improve operational efficiency and enable data-driven decision making
- Supporting organisations with AI-driven surveillance analytics, workforce automation, and integrated digital systems
- Serving clients across sectors including manufacturing, services, retail, and corporate organisations
- Guided by visionary leadership with over 25 years of experience in Oman's technology and business landscape, driving Nexura's mission to deliver innovative solutions and build long-term partnerships with organisations across the region

12. Terms, Conditions & Acceptance

12.1 General Terms

- This proposal is valid for 30 days from the date of issue (March 2026)
- All pricing is in Omani Rial (OMR), exclusive of VAT if/when applicable in Oman
- All source code, IP, and system components remain the intellectual property of Nexura Business Solutions LLC
- Al Sawari International Investment Company SAOC receives a perpetual Single Entity right-to-use licence for the contracted scope
- Data ownership: all data belonging to Al Sawari International Investment Company SAOC remains the exclusive property of the client at all times

12.2 Implementation Conditions & Client Responsibilities

- Implementation assumes a single legal entity and single installation location (Muscat HO)
- Client to identify key users for each module who will be available for training per agreed schedule
- Client to provide meeting rooms, hardware, and infrastructure for training and implementation sessions
- Client to provide employee data in Nexura-specified templates for migration
- If implementation exceeds 60 days due to client delays, 20% of licensing cost per additional month will be charged
- Network infrastructure, hardware (server), and internet connectivity are client responsibilities
- Change requests (new features, enhancements beyond agreed scope) will be quoted separately at OMR 25 per man-hour

12.3 Liabilities & Limitations

- Customisations and changes beyond agreed scope are change requests and will be quoted and approved separately
- Third-party software licences (additional biometric SDK, SMS gateway beyond standard) and Ai Agentic Tools are additional
- Nexura is not liable for delays caused by client's inadequate participation, delayed data provision, or delayed approvals
