The complete customer's guide for

PERSONNEX HRMS & PAYROLL SOFTWARE

WELCOME!

Wisdom IT Solutions is an Oman-based software company that offers a comprehensive range of information technology services and software solutions for business organizations including expert design, development, implementation, and hosted solutions.

We provide SME's, Corporates, and Ministries in Oman and the UAE with the most comprehensive modern, web-enabled, and cloud-ready HR products Suite PERSONNEX. Each module of Personnex is linked to the others in order to boost the product's overall efficiency by eliminating data islands. Furthermore, each product will function independently, giving clients a variety of alternatives and implementation methodologies to choose from.

Our well-proven software and service portfolio meets the diversified needs of finance, HR, and administrative personnel, allowing them to appreciate the value of proactive services and technical expertise.

As a result, this customer guide will expose the product features and accessible options in the PERSONNEX Software and will keep you interested in the following self-contained modules;

- Human Resource Management
- Payroll Management
- Employee Self Service
- Time Attendance System
- E Mail Notification Module

personnex BILINGUAL HRMS (ENGLISH & ARABIC)

The key features of

Analyzing the PERSONNEX PAYROLL

Payroll is one of the key modules in Human Capital Management. This is used to calculate the remuneration for each employee with respect to the work performed by them. Payroll not only consists of remuneration part, but also the other benefits that the organization has to provide for the employee welfare according to different company laws in any country.

Before you commence the search for new payroll software, you should analyze your current payroll software capabilities and payroll procedures. This will help you to identify more specifically the areas where current and future business needs are not being met. This in turn will help guide your new payroll software selection.

LAW

FUNCTION	ROLE	AMENDMENT	MEETS YOUR NEEDS
Labour Law	to get the master data and other payroll related information		
Social Insurance Law	to get time related data to calculate the remuneration and for payroll run.	Time Management Data needed & Financial data to be exchanged	

INTEGRATION

FUNCTION	ROLE	AMENDMENT	MEETS YOUR NEEDS
Personnel Administration	to get the master data and other payroll related information		
Time & Attendance Management	to get time related data to calculate the remuneration and for payroll run.	Time Management Data needed & Financial data to be exchanged	
Finance and Accounting	Expense Payable for payroll is posted to accounts using integration with Finance and Accounting module		
SAP			
Dynamics			
Oracle			
Focus			

MASTER SETUP			
FUNCTION	ROLE	AMENDMENT	MEETS YOUR NEEDS
Business Organization	❖ Supports • Multiple Branch • Divisions • Department • Job • Grades		
Payroll Process Group	❖ Supports multiple payroll process group • By group, we can run the payroll process individually for two categories i.e. National and Expatriate are the two categories salaries can be processed. ❖ Supports multiple process group ❖ Adding Deleting employee from the group		
Employee Information	❖ Collects and edits all • employee related • position related data needed to process payroll and to support personnel activities of the standard Personnel Management/Payroll system. ❖ No duplicate data entry • Changes made to the common HR and Payroll database need to be entered only once. • This eliminates errors and the need for duplicate entry of employee, pay rate, benefits and deduction information	Only Label can be changed,	
Payroll Parameters	❖ Payroll Cut off Dates • Pay Start Date and Pay End date	Groupwise payroll cut off date Cut off Date/OT Hours Finalized by the	

	• Pay Days (0) - Days in months, unless specify e.g.. 30) • Hours to divide basic to calculate overtime • By working days or Calendar days default is Calendar days	customer before initiating the project	
Earnings	❖ Unlimited earnings codes ❖ Reimbursement earnings ❖ Calculation rules ❖ Fixed earnings ❖ Variance earnings ❖ Sort order to print in reports and Pay slip		
Deductions	❖ Unlimited deductions codes ❖ Calculation rules ❖ Fixed deductions ❖ Variance deductions ❖ Sort order to print in reports and Pay slip		
Grouping Earnings and Deductions	❖ Can group earnings and deductions under a common group name ❖ Useful for reporting like Overtime and Food Allowance together		
Pay Grade & its Uses	❖ A Pay grade is a grouping that encompasses positions with the same or similar values in order to assign compensation rates and structures. • Grade wise can assign Leave eligibility • Grade wise can assign Salary Structure • Grade wise can assign Salary Increment Bulk increment)		
Leave Types & Rules	❖ Support multiple leave types and rules ❖ Creates policy consistency across the organization Paid and Unpaid Leaves If Paid, Percentage to Paid ❖ Supports Slab wise deductions • e.g. Sick leave slab as per MOM ❖ Encash Indicator ❖ Ensures compliance with labor laws ❖ Earned Leaves • e.g. Annual Leaves and Comp off		

	❖ Eligible after how many days, months and years to apply ❖ Annual Leave Indicator ❖ Allowed times to take in a tenure • e.g. Umra and Haj ❖ Is Negative Allowed ❖ Recycle By Calendar or Joining Date ❖ Is Attachment Required? when applying through ESS module for approval ❖ Can Apply In Advance? ❖ Is Show In Leave Balance? ❖ Allowed to take by particular Gender or Both ❖ Allowed to take by National or Expat or both ❖ Allowed to taken by Muslim or Non-Muslim or Both
