WISDOM IT SOLUTIONS

To

Mr. Adil Msellem Al Alawi

Asst. General Manager – Group HR & Admin

Risk Management Services

P.O.Box 1734, Ruwi, P.C.112,

Sultanate of Oman

Dear Mr. Adil Msellem Al Alawi,

Greetings!

Wisdom IT Solutions is pleased to submit its technical and commercial proposal to Risk Management Services in response to your requirement for the implementation of Payroll, HRMS and Employee Self Service System Products & Services.

It is our privilege to present our comprehensive technical and commercial proposal, which outlines how our solution can transform the efficiency and effectiveness of your HRMS and Employee Self Service System in terms of deploying the software products, training, setup and strategy implementation.

We are committed to providing efficient and tailored solutions that align with Risk Management Services needs and goals.

My contact information is provided below. On behalf of Wisdom IT Solutions, thank you once again for giving us the opportunity to respond to your business requirement and we look forward to work with your organization for a mutual rewarding partnership.

Please do not hesitate to contact us if you have any doubts or clarification on any of the above proposal.

Thank you so much for your time and consideration.

for Wisdom IT Solutions

SARAVANAN. N
Head - Business Unit
M: 92190901 | T: 24499895 | E: saravanan@witsoman.com | W: www.wizdomsoft.com

ABOUT THE PROPOSED SOLUTION & MODULES

PURPOSE

In order to modernize and streamline current processes, Risk Management Services wishes to implement a modern and updated HR, Payroll, and Employee Self Service Portal with the most recent features. This will have a significant impact on the organization's administrative process via real-time reporting and dashboard interfaces that more effectively leverage HR and Admin activities. The Personnex HRMS Product is a state-of-the-art human resource management system created and developed by Wisdom IT Solutions in Muscat, Oman, and is described in this document along with a high-level solution overview and proposal.

PROPOSED SOLUTION

We, Wisdom IT Solutions, are proposing our product "PERSONNEX" as the best fit for Risk Management Service's HRMS requirements; Personnex is a modern, web-enabled, and cloud-ready HR products Suite. Each module of the Personnex is integrated with the others to improve overall product efficiency by removing data islands.

PRODUCT OFFERING

- Core HRMS with HR Document Management & HR Templates
  - Appraisal Module
  - Recruitment Module
- Payroll
- Desktop ESS (Employee Self Service)

DETAILS OF EACH MODULE

HRMS

- Common Master Information
- Employee Information Management
- Dependent Management
- Document Management
- HR Letters
- E Mail notification & Alerts management
- MIS Reports & Graphs in Dashboard
- Appraisal Module
- Recruitment Module

personnex BILINGUAL HRMS (ENGLISH & ARABIC)

PAYROLL

- Pay Structure Master
- Package grouping
- Bank & Accounts
- Wage Protection System (WPS)
- Leaves & OT Setup
- Earnings & Deductions
- Utility Payments
- Increments & Loans
- End of Service & Benefits
- Pay Slips & Bank Letter
- Pre Payroll Process
- Air Ticketing
- Parallel Run
- Reports & Graphs

EMPLOYEE SELF SERVICE

- Leave Management
- E Mail Alerts for mandatory document not uploaded
- Attendance/Absent Request
- Technology Request
- Admin Request
- Travel Request
- My Details
- Pay slip View & Download
- Dashboard for Leave View
- Warning
- Permission Management
- Announcements
- Salary Certificate Request
- Exit Request
- Multi-level approvals (3 layer levels)

PROJECT MANAGEMENT

Sl. No.	Category	Description
1	PROJECT INITIATION	• Prepare a project-plan with detailed activity schedule and a time-bound action plan for the implementation of the HRMS Payroll system and ESS Module. • During this phase, Wisdom IT Solutions Project Manager will initiate the project by defining and agreeing on the high-level scope, requirements, and schedule of the project. • The Kick-off meetings will cover following key activities: ▪ Define Wisdom IT Solutions and customer representatives for the project ▪ Define project scope ▪ Define high level project schedules, with major milestones and target dates ▪ Identify project approach in terms of resources, location, technology etc. ▪ Define Wisdom IT Solutions and customer responsibilities • Project team mobilization will also take place during this phase.
2	PROJECT PLANNING	• Study the existing functionalities of all the business processes in detail and submit the document detailing the functionalities, problem areas and expectations of Risk Management Services. • Identify the process/procedure that needs to be modified/introduced to meet the needs of the proposed system. • Identify the customizations other the scope and parameterization to be done in the HRMS Payroll system solution.
3	IMPLEMENTATION & SIGN OFF	• Wisdom IT Solutions ensure the proposed solution conforms to meet the customer requirements in terms of both functional and technical requirements. • Wisdom IT Solutions will thoroughly test the software for load, quality and performance along with proper functioning at their site before deployment of the software on production environment. • The various testing procedures & methodologies will achieve smooth running of the software. Software system's Performance will be evaluated on the following factors, ▪ Final approval/User Acceptance of the software and system shall be given by Risk Management Services after the testing and successful implementation. ▪ The web based HRMS Payroll System developed and tested shall be hosted at Client's Server or Cloud Server. ▪ Provide performance tuning parameters/configuration of the Server/OS/Application Server software on which the application would be installed to the team of Client's server for efficient working of the Application Software. • Sign off the project.

UNIQUE ADVANTAGES OF OUR SYSTEM

PRODUCT ADVANTAGES

- Entire Product is Conceived, Designed, and Developed in Oman by Wisdom IT Solutions.
- On-Premises or Cloud or Hybrid-cloud deployments are Possible.
- 15+ Companies are using our Personeex HRMS Suite product, implemented and supported by Wisdom IT Solutions.
- In country and In-house Techno Functional for expert assistance and quick support.
- Customizable to any extent based on customer expectations, so the opportunity to tailor the software to individual business rules.
- Optional Integration APIs are available, easy to integrate with in-house or third party applications.
- Integration APIs are available, easy to integrate with in-house or third party applications.
- Built for Enterprises and corporates. Backend as oracle & Frontend as .NET web based and Cloud ready.
- Product is bundled with Oracle XE Database License, No license to be procured.
- Dashboard interface for quick assessment over reports.

STRENGTHS

- Web based solution.
- Can provide the option to host the application in the Cloud locally in Oman (Eg. Oman Data Park, NxS) and access from your office.
- Automatic reporting to the Management through mail regarding the various process statuses.
- High level support will be provided to minimize the down time of the system. Our profound knowledge and experience has developed our ability to foresee and recognize the market trends and fulfil our Client's needs effectively.

VALUE ADDITIONS

- 1 Year Warranty and Post Implementation Support
- Free Oracle 21c XE License for unlimited period
- Free User Manuals
- 100% Online Technical and Non-technical Support as long as contract ends.
- Assigning a Technical Support Engineer for application support coordination during the post implementation period.
- During the warranty term (6 Months) Wisdom IT Solutions shall perform all the upgrade/new version update free of cost

OTHER FACTS

CUSTOMIZATIONS

- The final product will be delivered as per the scope of work described in the proposal document, however any changes or new features or tasks or services required by the Client will be charged according to the time and effort required to accomplish the same. These requirements are called change requests.
- Based on the change requests, Wisdom IT Solutions will submit a change request quotation. On approval of the change request quotation we will commence the development and deployment.
- The Change request quotation will be provided based on the below tasks and each task will be estimated by hours.
  - Requirement gathering and finalization of the required Variation Changes and Enhancements in the respective modules.
  - Data loading /migration tasks
  - Coding and development
  - integration
  - Testing
  - Any other services
  - Review and Launch.
- Each Man hour will be costing RO 20/- (per hour/per resource)

FACILITIES

- Facilities (meeting rooms, hardware, software, etc.) for implementation, workshop sessions, training, and other hands-on activities will be provided by the Client.
- Client should provide proper and adequate infrastructure for conducting the training or meeting.

TRAINING

- Wisdom IT Solutions will provide hands on user training for system operation and for proper functioning of Payroll, HRMS, Time Attendance and ESS System.
- Training will be provided up to five key application users as identified by the client for one time and a maximum period of 3 days of 4 hours per day.
- Risk Management Services should ensure that users are available for training according to the training schedule decided upon.
